

7ma
Reunión del Grupo
de Aves Playeras
del Hemisferio Occidental
10 al 14 de Noviembre, 2017
Paracas - Perú

GENERAL PROGRAM

	Thrusday November 9th	Friday November 10th	Saturday November 11th	Sunday November 12th	Monday November 13th	Tuesday November 14th			
08:00 - 09:00	General Registration		General Registration						
09:00 - 10:30	Workshop: Buff-breasted Sandpiper Conservation	Workshop: NABC Shorebird Banding Training	Meeting: Pacific Flyway Group	Plenary Session: Dr. Guy Morrison	Plenary Session: Dr. Nigel Clark				
10:30 - 11:00				Coffee Break					
11:00 - 13:00				Shorebirds in production systems in the Americas	Estimating Seasonal Survivorship in Shorebirds	Habitat	Biofilm feeding by shorebirds: conservation implications	Shorebirds Trophic Ecology	Conservation
13:00 - 14:45				Lunch					
14:45 - 16:25				Connecting communities of the Americas through climate-Smart Conservation Science	Community engagement in shorebird conservation	Calidris Genus	Reproduction	Climate	General Talks
16:25 - 16:45				Coffee Break					
16:45 - 18:05		Connecting communities of the Americas through climate-Smart Conservation Science	Community engagement in shorebird conservation	Connectivity	Workshop: Introduction to eBird as a Shorebird Monitoring Tool	Meeting: National Plan for Shorebird Conservation in Peru			
19:00 - 20:00	Social inauguration		Meeting: Mentor - Studiant	Executive Meeting: WHSG					
20:00 - 22:00					Coastal Solutions: Fellows Program	Closing Gala Dinner			

Friday
November 10th

	Room Huerequeque	Room Puco - Puco	Room Batitú
11:00 - 11:20	Factors influencing grassland habitat use by shorebirds wintering in Rocha Lagoon, Uruguay. Aldabe	Piping plover chick survival reduced by human presence. DeRose	Abundance, Distribution and Habitat Use of Shorebirds in the Coast of Chile. García
11:20 - 11:40	Effects of intertidal habitat availability on the use of semi-intensive shrimp-farms as foraging grounds by shorebirds. Basso	Age-specific survival and probability of breeding in the Mountain Plover. Dinsmore	Influence of habitat conditions on body condition and reproductive success in the Snowy Plover (<i>Charadrius nivosus</i>). Gómez
11:40 - 12:00	Shorebirds in bird-friendly rice fields in Colombia. Cifuentes	Return rates of Red Knots (<i>Calidris canutus roselaari</i>) at Golfo de Santa Clara, Sonora, Mexico, 2010-2017. Hernández	Determining migration routes, stopover sites, and habitat selection of a species of high concern: The Buff-breasted Sandpiper (<i>Calidris subruficollis</i>). Tibbitts
12:00 - 12:20	Preliminary evaluation of the use by shorebirds of shrimp farms associated with the Delta del Estero Real, Nicaragua. Reyes	Apparent breeding season survival of adult Semipalmated Plovers breeding in subarctic Canada. Mills	Migratory shorebird movements and habitat use in Delaware bay. DeRose
12:20 - 12:40	Buff-breasted Sandpiper in agroecosystems from colombian Orinoquia region. Ruiz	Lifetime reproductive success and migration mortality in Semipalmated Plovers. Nol	Using Audubon Coastal Bird Survey data to identify important migrant shorebird habitat along the Mississippi gulf coast. Darrah
12:40 - 13:00	The importance of monitoring shorebirds populations and promoting best management practices in rice fields as new strategic stop-over in their migration in Paraguay. Sforza	Seasonal carry-over effects in a long-distance migrant. Swift	Effects of the tsunami on September 16, 2015 (t16s) on aquatic bird habitat in the wetlands of Coquimbo bay (central-north of Chile). Jofré
LUNCH			
14:45 - 15:05	The migratory shorebird project: towards a climate-smart conservation science network for wetlands on the Pacific poast of the Americas. Reiter	Learning about shorebirds and migration with the community. Agreda	Long-term increase in wing, but not bill length, of Western Sandpipers (<i>Calidris mauri</i>). Lank
15:05 - 15:25	Increased Shorebird populations in the Bay of Panama – 2013-2017. Diaz	Reducing human recreation and wildlife conflict in the Fraser Estuary. Bradley	The effects of continental-scale raptor recovery on phenotypic change in the wing lengths of Western (<i>Calidris mauri</i>) and Semipalmated (<i>C. pusilla</i>) sandpipers. Ydenberg

	15:25 - 15:45	Patterns of wintering shorebirds of the temperate zone in the peninsula of Baja California, Mexico. Muñoz	Festivals in the San Antonio Bay, Rio Negro, Argentina: New actors to facilitate conservation and community involvement achievements. Carbajal	First records of stopover sites for <i>Calidris subruficollis</i> in Beni Sánchez
	15:45 - 16:05	Annual monitoring reveals drought impacts on the distribution and abundance of shorebirds and their habitat. Barbaree	Citizen science as a tool for the strengthening of a conservation area on the Colombian Pacific Coast. Falk	Stopover Ecology of the Least Sandpiper (<i>Calidris minutilla</i>) in Iowa. Vanausdall
	16:05 - 16:25	Segregation of shorebirds across a gradient of predation danger in a tropical delta. Johnston	Participatory experiences for the conservation of shorebirds in the Gallegos Estuary (Patagonia, Argentina). Ferrari	Mass gain in a spring-staging long distance migrant shorebird, the Red Knot (<i>Calidris canutus rufa</i>). Robinson
	16:25 - 16:45	COFFEE BREAK		
	16:45 - 17:05	Effects of disturbance on the density and behavior of shorebirds. Vargas	Connecting communities in Patagonia through shorebirds: The experience of Asociación Ambiente Sur. Montero	Migratory connectivity and migration ecology of Black-bellied Plovers (<i>Pluvialis squatarola</i>) in the Americas. Harrison
	17:05 - 17:25	Identification of critical sites for shorebirds in Ecuador. Agreda	Involving the school and teacher community in the conservation of the Bahía Lomas Ramsar site, Chile. Paredes	Discovering the connectivity of the Delta del Estero Real, Nicaragua, for shorebirds: the case of the American Oystercatcher (<i>Haematopus palliatus</i>). Jarquín
	17:25 - 17:45	Conservation prioritization for shorebirds from Mexico to Peru. Eusse	Unifying our Voices for Bird Conservation: Updates from International Migratory Bird Day and the Celebrate Birds Shorebird Initiative Justiniano	Post-breeding Migration of Red Knots in Georgia, USA and Connectivity in the Western Atlantic Flyway. Lyons
	17:45 - 18:05	Free	Free	Free

Saturday
November 11 th

	Room Huerequeque	Room Puco - Puco	Room Batitú
11:00 - 11:20	Revelations: Alpha and the Omega – or Why Diatoms Matter for Shorebirds? Baird	Relationship between the abundance of three calidridine sandpipers and their potential prey on a tropical coastal lagoon. Angelozzi	Priority conservation sites and their supply of food for migratory birds on beaches of Chiloé, south of Chile. Balboa
11:20 - 11:40	Investigating the trophic interactions of Western Sandpipers (<i>Calidris mauri</i>) and biofilm on a temperate mudflat. Canham	Shorebirds and invertebrate communities on beaches in the Peninsula Valdes, Patagonia, Argentina. Stories through 15 years of study. Bala	Basic information for the conservation of shorebirds in Venezuela. Giner
11:40 - 12:00	Biofilm consumption by Semipalmated Sandpipers in upper Bay of Fundy, Canada: tongue morphology, foraging behavior, and prey quality. Hamilton	Preliminary data of the diet of White-rumped Sandpiper and the Two-Banded Plover at Medanos beach, Gulf of San Jorge, Argentina. Castillo	Subspecific migration ecology and regional conservation priorities for the Dunlin (<i>Calidris alpina</i>). Lagasse
12:00 - 12:20	Isotopic approaches to deriving estimates of biofilm contributions to diets of shorebirds. Hobson	Evaluation of the diet and intake rate of two shorebirds species in a shrimp farm in northwest Mexico. Fonseca	Importance of salt farms for the monitoring and conservation of shorebirds in Honduras and their benefit for local development. Salazar
12:20 - 12:40	Biofilm dynamics during northward migration. Rourke	Characterizing Arctic shorebird chick diets: providing insights into trophic mismatch with DNA barcoding and next-generation sequencing. Gerik	Leading indicators for conservation: Utilizing a model of stopover site selection and citizen science surveys to assess census trends Hope
12:40 - 13:00	Diatoms, fatty acids and Western Sandpipers on Roberts Bank, Fraser River estuary, British Columbia Schnurr	Measuring Hudsonian Godwit's intake rate throughout the non breeding season in Chiloé. Navedo	Pacific Americas Shorebird Conservation Strategy. Senner
LUNCH			
14:45 - 15:05	Sharing the shores: measuring and mitigating disturbance on breeding White-fronted Plovers. Flores	Are geese the new climate change? Consequences of hyperabundant geese on sympatric shorebirds. Flemming	Temporal variation of shorebirds on the intertidal mudflats of the Canal of Jambell, south of the Gulf of Guayaquil. Agreda
15:05 - 15:25	Phenological mismatch in Arctic-breeding shorebirds: Adaptability to earlier summers and impacts on chick growth. Saalfeld	Shorebird nest site composition and niche partitioning: Implications for climate change. Gottesman	Site occupancy and behavior of migratory shorebirds in agriculture fields in the Rainwater Basin, Nebraska in USA. Brown

	15:25 - 15:45	<p>Monogamous shorebirds breed earlier and match with food peak better than sympatrically breeding polygamous shorebirds.</p> <p>Kwon</p>	<p>Assessing the effects of climate-driven shifts in prey on Red Knots using Virginia stopover habitat.</p> <p>Heller</p>	<p>Influence of foraging substrate, mudflat type, and human disturbance on Hudsonian Godwit (<i>Limosa haemastica</i>) abundance on Isla Chiloe, Chile.</p> <p>MacDonald</p>
	15:45 - 16:05	<p>Timing, breeding propensity, and chick growth of shorebirds at an Arctic site in Alaska: does interannual variability in environmental conditions override potential mismatches?</p> <p>Ruthrauff</p>	<p>Can snow geese and shorebirds coexist in a changing Arctic?.</p> <p>Kennedy</p>	<p>Use of a generalized N-mixture model to estimate daily abundance of migratory shorebirds at a stopover site.</p> <p>Kwon</p>
	16:05 - 16:25	<p>Reproductive ecology of <i>Charadrius wilsonia beldingi</i> in Baja California Sur, Mexico.</p> <p>Valdez</p>	<p>Assessing the impacts of hurricane Matthew on a population of American Oystercatchers using a bayesian open population robust design model.</p> <p>Catlin</p>	<p>Dynamic surface water distributions mediate the non-migratory movements of shorebirds within a highly modified interior landscape.</p> <p>Barbaree</p>
	16:25 - 16:45	COFFEE BREAK		
	16:45 - 17:05	<p>Workshop: Introduction to eBird as a Shorebird Monitoring Tool</p>		
	17:05 - 17:25			
	17:25 - 17:45			
	17:45 - 18:05			
			<p>Meeting: National Plan for Shorebird Conservation in Peru</p>	

Monday
November 13 th

	Room Huerequeque	Room Puco - Puco	Room Batitú
11:00 - 11:20	The helminth communities of migratory Nearctic shorebirds in coastal and inland wetlands in Patagonia, Argentina. Capasso	Surveying for antibiotic resistance in long-distance migratory shorebirds. Araya	Gruipeda dominguensis: A dinosaur? A shorebird? Or a shorebirdasour? Bala
11:20 - 11:40	Physical condition of migratory shorebirds at the Valdes Peninsula, Patagonia, Argentina. D'Amico	Trophic niches and feeding preferences of migratory and resident shorebirds in southern Brazil. Faria	Connecting Festivals. Cooper
11:40 - 12:00	Avian flu surveillance in migratory birds, Paracas – Peru. Dupont	Characterization of the benthonic infauna associated to the shorebirds that use the beach Pacora – Chico on the pacific coast, Panama. Carty	A two-year assessment of SAVE Brasil's Shorebird Program: What have we achieved?. Almeida
12:00 - 12:20	Pathogen prevalence of shorebirds in the western hemisphere. Grond	Comparative analysis of nest predation rates and life history strategies in shorebirds. Kubelka	Preliminary data for the effect of tides in the behavior of shorebirds in the coastal wetland of "Poza de La Arenilla", La Punta, Callao Podesta
12:20 - 12:40	Physiological parameters of Two-banded Plovers at breeding sites in Patagonia, Argentina: are human activities affecting breeding adult birds? Hevia	Addressing the sustainability of shorebird hunting in the Caribbean and northern South America. Andres	CONCYTEC
12:40 - 13:00	Unraveling causes of over-summering by a long distance migrant shorebird: Red knot (<i>Calidris canutus rufa</i>) at southern South America. Martínez	Free	Bandedbirds.org: A web-based Relational Database for Reporting and Retrieving Observations of Individually- Marked Bird Mizrahi

13:00 - 14:45

LUNCH

14:45 - 15:05	Silent Auction	Poster Session
15:05 - 15:25		

	15:25 - 15:45	Silent Auction	Poster Session
	15:45 - 16:05		
	16:05 - 16:25		
	16:25 - 16:45	COFFEE BREAK	
	16:45 - 17:05	Silent Auction	Poster Session
	17:05 - 17:25		
	17:25 - 17:45		
	17:45 - 18:05		

Tuesday
November 14th

	Room Huerequeque	Room Puco - Puco	Room Batitú
11:00 - 11:20	Advancement in migration timing of Alaska-breeding Bar-tailed Godwits differs by breeding latitude. Conklin	Initial evaluation of the population status, movements and availability of food of the Wilson's Phalarope (<i>Phalaropus tricolor</i>) in the Pampas eco region, Argentina. Bucher	Southbound Semipalmated sandpipers have shifted to safer stopover sites since 1974. Hope
11:20 - 11:40	Migration of Hudsonian Godwit (<i>Limosa haemastica</i>) between Chiloe (Chile) and Alaska (USA) during 2016-2017. Espinosa	Estimates of population size and trends of Buff-breasted Sandpiper (<i>Calidris subruficollis</i>) in wintering areas in southern Brazil. Faria	Estimating full life-cycle distributions and relative abundance across the Western Hemisphere. Johnston
11:40 - 12:00	The influence of environmental variables on the timing and route of migratory movements by Marbled Godwits breeding in Alaska. Ruthrauff	Three decades of monitoring population trends of shorebirds at the Ecuasal Lakes in Southwest Ecuador. Haase	The importance of standardized long-term monitoring: Lessons learned from the first 20 years of ISS in Latin America and the Caribbean. Lesterhuis
12:00 - 12:20	How the existence of alternate migration strategies may mediate the effects of stochastic and predictable climatic changes on long-distance migratory birds. Senner	Shorebird populations and seasonality at the Real-Piauí estuarine system, Mangue Seco, Northeast Brazil. Almeida	Updated bird list for the Paracas National Reserve Aguilar
12:20 - 12:40	Comparing annual variation in stopover mass gain between two long-distance migrants. Tucker	Population Estimates and Distribution of Shorebirds on the Yukon Delta National Wildlife Refuge, Alaska. Lyons	Trinational shorebird count in the Gulf of Fonseca, 2017. Van Dort Van Dort
12:40 - 13:00	Genetic evidence for two populations of roselaari Red Knots migrating along the Pacific coast of the Americas. Verkuil	Estimating passage population size for the endangered rufa Red Knot staging in southwestern James Bay, Ontario, Canada MacDonald	Shorebird monitoring in the Parque Interjurisdiccional Marino Costero Patagonia Austral, Gulf of San Jorge, Patagonia, Argentina Musmeci
13:00 - 14:45	LUNCH		
14:45 - 15:05	Introduction to Management. Winn	Evidence of a mortality event of Red Phalaropes during southward migration in British Columbia. Drever	Wing morphology of Semipalmated Sandpipers (<i>Calidris pusilla</i>) Ortiz
15:05 - 15:25	Ecuador's Shorebird Conservation Plan. Agreda	Body condition explains migratory performance of a long distant migrant shorebird. Smith	Spatial-temporal variation of shorebirds in the Paracas National Reserve. Saravia

	15:25 - 15:45	Finding a path to promote shorebird conservation at Lagoa do Peixe National Park Bosi	Discovery of an important stopover location for migratory Piping Plovers of South Point, Ocracoke Island, North Carolina Weithman	Reproduction of <i>Charadrius nivosus</i> , <i>C. wilsonia</i> and <i>Himantopus mexicanus</i> in the Wetlands of Sechura and La Unión in northwestern Peru. Suarez
	15:45 - 16:05	Governance at the protected area Bahía de San Antonio, Río Negro, Argentina: a social and participative model with room for improvement. Carbajal	Consistent declines in wing lengths of calidridine sandpipers at a northern stopover site, southwestern James Bay, Ontario in Canada. Anderson	Status of shorebirds in the Ite Wetlands, south coast of Peru. Vizcarra
	16:05 - 16:25	Governance and management in the Ramsar site Bahía Lomas (Tierra del Fuego, Chile). Espoz	Do annual censuses adequately represent the richness and abundance of shorebirds at stopover sites? A comparison on the island of Margarita, Venezuela. Sanz	Population variation of shorebirds and their disturbances on the Aguada and Santo Domingo beaches in the Paracas National Reserve. Huayanca
	16:25 - 16:45	COFFEE BREAK		
	16:45 - 17:05	American Oystercatcher best management practices - applications and lessons learned. Schulte	Uncovering American Oystercatcher population dynamics, using a collaborative banding data base. Felton	Workshop: NABC Shorebird Banding Training Examen NABC
	17:05 - 17:25	Participative zoning in the Iscuande river delta, a community initiative for land management. Suárez	Review of the nesting status of American Oystercatcher (<i>Haematopus palliatus palliatus</i>) in Central America. Herrera	
	17:25 - 17:45	Wetlands and shorebirds at the arid Pacific coast of South America. Tabilo	American Oystercatchers as an umbrella species for beach nesting birds on the Georgia coast: How habitat and nest success inform the effectiveness of a surrogate species. Sterling	
	17:45 - 18:05	Expanding the international shorebird survey into South America to fulfill the goals of the Atlantic flyway shorebird initiative. Winn	Population size of American Oystercatcher during breeding season in Bahia Santa Maria, Sinaloa. Vega
